# SPOKEN WHEELS

## THE PRESIDENT'S MESSAGE

Thanks to all of our members who donated, and the members who bid on, the items at our Annual Auction. A Special Thanks to our wonderful auctioneer, Bob Travis, and his lovely assistants Bob Moore and Marlin Perry.

The total amount raised that night was \$1,895.00. Also... that same night we registered our 120<sup>th</sup> family into our club. We have a great club, with great members.

We received a very nice letter of "Thanks" from Foothill Unity Center, Inc. for our holiday food donation. This year was the biggest for donations by our club.

## FICTION & FACT

### Ponder This

by Joe Wilson

#### What If?

- What if you had a problem with your Model A and couldn't find anyone to help you fix it?
- What if you went to a SAA General meeting and there were no cookies, no one to run the meeting, no program and no reports?
- What if you wanted to participate in a club tour but no one had planned any?
- What if you wanted to re-new your membership but there was no one to send your check to?
- What if no one recruited new club members?
- What if no one sent you a newsletter?
- What if no one volunteered to fill any of the open positions for Club Officers, Board members and Committee Chairs? — Yeah, that's right! See page 9

### Editor Pleads “No Contest” to Missing Data Charges

The Santa Anita A's Model A Club newsletter Editor pleads guilty to charges relating to information not published in their monthly publication.

The editor was notified by a third party that the Anniversary dates of two members were missing and did not appear in the January issue of the Club's monthly newsletter, “Spoken Wheels”.

The missing information was subsequently recovered and is shown below:

**Mel & Jackie Gross - Anniversary date - Feb. 21**  
**Brad & Vicky Balmot - Anniversary date - Feb. 14**

Reliable sources commented that this not the first time information in the “Birthdays & Anniversary” section of the newsletter has been omitted or published incorrectly. The Club's President has been in contact with the Editor seeking a solution to this chronic problem. No explanation, logical or otherwise, provided by the Editor has been deemed acceptable.

### Special Program Scheduled for General Meeting

by John McDannel

*Editors Note: John McDannel, our VP and Program Chairman, has scheduled a program for our Feb. 22nd General Meeting that is both timely and professional. Take a look at the program description below. This is one you must not miss!*

#### Program title “Heroes of 1776”

The program is all about the history of our country's flag presented by a team consisting of four men and one woman. It will take us from the Revolutionary period to our present day flag and much of its history.

The flag team consists of four members of the Masonic Sojourners out of El Toro, Chapter 250. The presenters are all veterans of the United States Armed Services and will be dressed in their 1776 costumes for the presentation.

The program also focuses on the women of our Revolutionary period. The wife of one of the Sojourners will present that portion of our American history.

The program lasts approximately 45 minutes. It is colorful, educational, patriotic and you will enjoy the program.

#### Did you know:

- Our Presidents Day falls on Feb. 18, 2013.
- George Washington's birthday was Feb. 22, 1732
- Lincoln's birthday was Feb. 12, 1809.
- February is designated as "Americanism Month" by the American Legion.

## COMING EVENTS

### Palm Springs Hub Tour

February 27 to March 4

by Joe Wilson

Those of you who signed up for the Palm Springs Hub Tour already know what's going on, unless you lost all those emails Bob sent you. For those who didn't sign up, I want to let you know what you're missing.

#### ON THE ROAD AGAIN

- Day 1 - Feb 27 Travel to Palm Springs
- Day 2 - Feb 28 Windmill Farm Tour, Aerial Tram Excursion & Canyon Drive Street Festival.
- Day 3 - Mar 1 Driving Tour to Idyllwild, Stops at Cabazon Outlet Stores and Hadley's.
- Day 4 - Mar 2 AM - Choices: Sleep in, Visit Indian Canyons, Living Desert, Air Museum .  
PM - The Follies
- Day 5 - Mar 3 Driving Tour to Joshua Tree National Park with stop at Oasis Date Gardens
- Day 6 - Mar 4 Travel Home

Bob has put this together as a hub tour which is very popular with our members. We stay at one hotel and take day trips to surrounding attractions. This means we only have to unpack our suitcase once and the ladies have an easier time loading and unloading our cars while the men have a their "drivers meeting" in the lounge.

Listed below are 33 names; check them out. If your name is not on the list, you are not going. Hopefully, those 33 people will arriving in Palms Springs for the event in the same 17 vehicles they started with.

### Mom & Pop's Night Out

Sunday, March 17

by Mickey Fruchter

Mom and Pop's Night Out still has a limited number of tickets available to see "The Sound of Music". The lunch and matinee performance will be on March 17<sup>th</sup>. Thanks to Dick Canzoneri for arranging with the office of the Honorable Mike D. Antonovich, Supervisor District 5, to have a bus donated to transport us to and from the Claremont Candlelight Pavilion Dinner Theater. They always put on a great show, and the food is excellent. This is a fun activity, and I hope all of you will participate with our group. The Santa Anita A's treasury is contributing \$10.00 per member toward the cost of this event. Be sure to pay Carol Emanuelli at the February meeting to confirm your reservations.

### QUAKES BASEBALL GAME

Sunday, June 30, 2013

by Sheri Johnson

I am organizing a tour to see the Rancho Cucamonga Quakes (Class A affiliate of the Los Angeles Dodgers) play against the Lancaster Jet Hawks (Class A affiliate of the Houston Astros) on Sunday, June 30.

In order to get preferred seats in the stadium, I need to send an approximate count to the Quakes organization ASAP so they can set aside a block of seats for us. However, cancellations can be made as late as one week prior to the game.

The day will consist of a drive to the stadium, followed by an All-You-Can-Eat BBQ of hot dogs, hamburgers and chicken breast sandwiches. A variety of sides and drinks will be available. After the BBQ, we will enjoy the baseball game.

There will be many special activities for kids to participate in during the game, so I encourage you to bring your children and grandchildren for a fun day spent enjoying a baseball game together and with fellow Model A club members and their families.

The BBQ lunch will begin at approximately 12:30 p.m. and game time is 2:05 PM. A sign up sheet will be available at the next meeting. As the event gets closer, more info will become available. If you have any questions, please call me (626-485-3073).

## OTHER STUFF

### Nominating Committee and Elections

by Joe Wilson

Not everyone read last month's newsletter, so this information is published again. Recruiting Board Members and Committee Chairs for next year will begin at the next general meeting. This is an important process and we all should assume a responsibility for identifying and recruiting candidates for these positions. Outlined below is a description of this processes and its timetable.

#### February -

The president will establish a nominating committee. John Spielmann has volunteered to chair the committee. John Fant and Elaine Perry have volunteered to serve on the Committee. We are looking for two additional volunteers.

At the February 22<sup>nd</sup> General meeting, an "Information Sheet" will be distributed to members which lists the Club's Officers, Board Members and Committee Chair positions that must be filled. All club members are requested to indicate their interest in serving in one of these positions. A copy of that information sheet is included in this newsletter.

#### March -

The nominating committee will review the list of names volunteering for positions and then recruit people for any open positions.

A list of the members who will be running for the Officer and Board positions will be published in the March issue of the Spoken Wheels, along with a copy of an absentee ballot.

#### April -

Election of Officers and the Board will be by vote of members attending the April Meeting and those voting by absentee ballot which have been received prior to the start of the meeting. (No proof of I.D. Required.)

### New Technology Aids Dues Payment

Those of you who have added a computer and email to your list of "modern necessities" along with a microwave oven, a telephone and indoor plumbing, have received an invoice for your 2013-2014 club dues. Those of you who don't have a computer didn't.

This new technology places a copy of an invoice directly into your computer which may be downloaded and printed on your very own paper. This paper invoice may then transferred to your "Bills to Pay" box for disposition.

Unfortunately you must rely on old technology to complete the transaction. Simply write a check and mail or hand deliver it to Carol Emanuelli before your membership expires on March 31, 2013.

### Lamp Sheds New Light on Broken Crankshaft

by Sheri Johnson

Back in late August 2009, Tom and I were on our way to Quincy, CA in our 1929 Tudor Sedan for a Model A meet. Somewhere near Frazier Park on I-5 the car quit running. We found out later that the crankshaft broke. We were towed home, got our modern car and drove to Quincy to enjoy the meet.

Tom tore the engine down and removed the crankshaft. It was in two pieces. He acquired a crankshaft from Bob Moore, then took it to Chuck Sharpe for grinding. At that time, Chuck asked if Tom wanted the two broken pieces. Tom had no use for it and it was given to Chuck.

Later, during the Christmas season, Chuck gave me a gift. One picture is worth a thousand words. What a clever man!

### Club Member Harry Mycroft Dies

Born March 12, 1941 – Deceased January 15, 2013.

Harry Mycroft was born in South Gate, CA then moved to Temple City in 1950 where he lived the rest of his life. His real love was music and cars. At one time Harry owned 21 cars that were operational, and another 10 he was working on. Harry joined the Santa Anita A's in August of 2011.

Harry and his wife, Helga were married in 1962. They had two daughters, Kimi born in 1964 and Jennifer in 1969.

Funeral Services were held on January 22 at Rose Hills Memorial Park.

*President's message continued:*

We are starting to think about elections, which are coming up in April. Carol Emanuelli will be passing out a questionnaire at the February meeting requesting participation of our members to serve as officers and on committees to keep our club strong and fun. If you cannot make the meeting, please contact Carol to volunteer. We need your help.

Please patronize our wonderful advertisers and be sure to let them know you appreciate their support of our club.

## Club Auction

Friday, January 25

by Joe Wilson

Whether you are an Auctioneer, an Auctionor or an Auctionee, the annual Club Auction can be fun and entertaining, We had a good turn out with lots of donors and buyers. A record was set with sales totaling \$1,895.

Auctioneer, Bob Travis, Semi- professional Auctioneer, did an excellent job of squeezing top dollar bids out on even the most mundane items. His floor shills, Bob Moore, Marlin Perry and Mickey Fruchter did an outstanding job of identifying the quality features of each item and quickly delivering them to the happy high bidder. The "auctionettes" kept good track of who bid what and made sure everyone paid up. As usual, we ran out of time before we ran out of merchandise. No doubt we will see that stuff again next year.

Guess who won the modeling contest.

## Hole In The Head at USC

Thursday, February 7

John Emanuelli

Club member Wilbert Smith invited our Santa Anita A's to attend the viewing of the documentary film he had written, "Hole In The Head" which was being shown at the School of Cinematic Art on the USC campus.

The film is about the life of Vertus Hardiman, a friend Wilbert had know for many years from singing together in their church choir.

The School of Cinematic Art said "Trying to describe the remarkable story in a few sentences would be an injustice to Wilbert. Simply put, Vertus lived with a hole in his head for almost his entire life of 85 years, hiding it from everyone but his doctor, a few of his relatives and Wilbert."

Vertus' ailment was a result of doctors' over irradiation of ringworms from the head, at a time when experimental studies were not done with sufficient care.

Members attending the showing were Jerry & Patty Lampase, their friends, Tom & Sheri Johnston, Bob & Judy Moore, Leroy Gilbert and his daughter, and John & Carol Emanuelli.

Wilbert has also written a book on the life of Vertus. You may want to buy the book about this unbelievable man. It really is an inspirational true story. I recommend it.

Wilbert signs his book after the showing of his film "Hole in the Head" at the USC School of Cinematic Art.

## FROM THE SHOP BENCH

by Bob Travis

The following article appeared in the Orange County Model A Club Newsletter, "The Distributor". The Author, Rick Hall graciously gave us permission to use his article

### Clutch Adjustment Made Easy

Rick Hall, Technical Advisor, Orange County Model A Club

Clutch adjustment is a necessary element of keeping your Model A in good working order. The process, however, can be a frustrating pain in the butt! Keep reading - help is on the way.

There should be one inch of "free travel" when you push on the pedal before it begins to disengage the Clutch. Over the miles, the clutch plate will wear and free travel will lessen. If no adjustment is made, ultimately, the clutch will begin to slip. If the free travel is too great, for some reason, the pedal will fail to completely disengage the clutch and the gears will grind.

To adjust the clutch pedal, follow these steps:

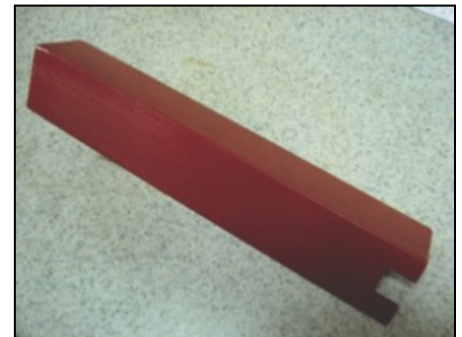

- 1) Take a pair of pliers and lay on your back under your pedals. There's no way to avoid this pain in the butt unless you have a car lift.
- 2) Remove the cotter key on the pin in the clevis rod attached to the clutch actuating arm.
- 3) Raise the clutch actuating arm enough to slide the pin out that connects the clevis rod to the clutch actuating arm. This is the frustrating part. You can use a hydraulic jack on top of a block of wood to raise the arm, or continue reading and learn how to make a handy tool to resolve the frustration.

4) Rotate the clevis rod in the trunion nut clockwise to increase pedal travel, or counter clockwise to decrease travel. This is a trial and error process until you get it "just right". You can use a small stick under your pedal wedged against the floorboard if you tire of it falling down. Remember to close the driver's door after each check so that you don't whack your head the next time you crawl out from under the car you love so much.

5) When the free travel is "just right" (one inch), climb under one more time and put a new cotter key in the clevis pin. The will prevent the clutch pedal from falling to the floor next time you are in the middle of nowhere with a dead cell phone.

To prevent the frustration mentioned in #3, I developed a crude, but effective tool that is used to raise the clutch actuating arm. I used a one foot length of 2" X 2" angle iron. Hardware stores and metal merchants usually have lots of this. Simply cut a 3/4" wide notch, 5/8" deep in one end. I used a cutting wheel and grinding wheel to accomplish this. Place the flat edge over the base of the arm and slide it back until the notch captures the end of the arm. Use the tool as a lever by pulling down to raise the arm enough to pull out the clevis pin.

*Note: The heavier welded-up after-market levers are wider. A wider notch may be ground in the opposite end of the tool to accommodate these levers as well. Be sure to grind the notch on the correct side of the angle iron so that the side of the tool will engage with the lever when being used to rotate the lever.*

## **MARLIN'S MUSINGS**

By Marlin Perry

Again this year, Bob Travis asked Bob Moore and Marlin Perry to help with the auction. Early in the evening many items, or better yet, parts and oddball things started coming in. Dick Canzoneri brought in Model A parts, Nancy Sharpe brought in a Bundt Cake. This was great because Carolyn McBride was not able to come due to Don's operation - this meant no pies. Jim Constantian brought used tires. Others brought in lava lamps, a typewriter, radiator emblems, cake plate, safe, dual carburetor, manifold hookup, Model T parts, and Model A books. You name it and we had it all. Tables were full of stuff and the chairs were full of people. At 7:25pm Bob Travis started the auction and, as always, the club's famous and sought after picture came across the auction block with John Emanuelli bidding and getting the picture for a year. Art Moore with the high bid got the dinners offered by Joyce Travis for six, wondering what will be served. Dick Homet is looking for a dentist; he got 5 See's candy certificates. As for me, I got Nancy Sharpe's Bundt cake. It was full of chocolate chips - oh so good. I also got the cake plate, which also serves as a punch bowl if turned up side down. Thanks Sheri Johnson, I love it.

All in all we all had fun, and the club did great with money flowing in. Lets all take a bow, we did good; better yet, we did really good.

### SEMINAR NEWS

The Low End Boys were asked to check out John Spielmann's engine for a problem of not running. John was out for a ride and the engine quit running. He had it towed home and the Low End Boys came over to check it out. At first we thought he had carburetor problems. Wrong. We opened his distributor cap and had him start the truck. Oh yes, he has a real pretty green pick up - like real pretty. We noticed his cam was not turning - not good. We pulled his distributor - it was frozen. Marlin took it home and took it apart using a hammer and power to get the distributor shaft out. Once apart, we found the distributor bushing on top was replaced with a metal part instead of a brass bushing. We rebuilt his distributor using a new shaft because the old one was bent on the bottom spline. Also, new bushings, both brass, (\$1.00 each) were put in.

Next trip we decided to open the valve cover and look inside for possible damage. Once inside we found his oil pump drive gear was not good. We tried to get it out. No luck, so we dropped the pan, took out the oil pump and found part of the oil pump gear stuck to the oil pump. We replaced the drive gear housing and oil pump drive gear. The next trip to John's found us checking out the timing gear, and yes, we found it all torn up. John went down to Antique Ford and got parts from Jim Gordon; this is where Gene Reinhardt came in. Timing gears need real love; perfect fit or all is not good. Gene did it with white chalk and lots of patience. John Emanuelli was under the truck pushing and praying.

On our last day at John's with Perma Glue and all clean new parts they were put in place. John took the truck out and came home smiling. All in all, it took 5 different days to get everything fixed - all because of a \$1.00 bushing. If you're going to repair something, check your car parts books and use the right parts.

We all enjoyed working with John and thank him for many lunches. And, I must say, John has a shoe box size garage, like really, really small.
