SPOKEN WHEELS

THE PRESIDENT'S MESSAGE - Bob Travis

I want to thank Jack Dawson and Gene Reinhardt for presenting a seminar on metal soldering, brazing and welding at his home in La Canada. Barbara made sure we were treated (all 30 of us) to a nice lunch. It turns out that there was a ringer in the group. Rick Phillips son is a certified welder and contributed to the discussion.

Board Approves Change in Club's Operating Year

The Santa Anita A's Board approved a plan to change the club's operating year from a Fiscal year, running from June 1 through May 31, to a calendar year running from January 1 through December 31.

This change will require a revision to the club's by laws which must be approved by the club membership. Details for implementing this change are now being worked on. More information on the change will be announced in the December newsletter. The revised by laws will be sent to all members in January 2015. A vote for approval of the by law changes will take place at the January general meeting.

This change will put our operating year in coordination with the MAFCA calendar year.

New SAA's Tour Meister*

Jim Kroeger has accepted the position of Tour Director for the Santa Anita A's. Jim will be replacing Bob Moore who had previously announced his plans to retire on January 1, 2015. Our president, Bob Travis, has promised Jim that members of our club would actively support him in planning and operating tours. That would include you.

Last year Jim organized a very successful "LA Bridge tour" which included a photo-op on the LA river bed under the 6th Street bridge in downtown LA.

Let's support Jim in his new post by helping with planning and organizing tours for 2015.

Charles & Myriam Davies

Chuck Davies was born and raised in the Chicago area. After finishing school he tired of the Chicago weather and, as he put it, "got smart" and came to California. He came here to work for Douglas Aircraft, but the job ended after only one year when the project he was working on ended.

He went into stereo and sound sales and eventually opened his own store. A number of years later he opened a "Disc Jockey" department, selling equipment to DJs who entertained at parties and weddings. A fruitless search for good lighting led him to become an importer of lighting, etc. for special effects for the DJs. He's still working today, mostly by hiring "people smarter than me" to run the operation. Myriam helped in the store until they started having children.

About 20 years ago Chuck bought a '29 2-door sedan. What he really wanted though was a Model T. He went to look at one offered for sale, but it wasn't what he wanted. The seller, though, had a '30 Model A Cabriolet. It wasn't for sale, but Chuck wanted it and found that everyone has a price and he bought it.

Chuck is nursing a sore back at the moment but plans to become more active in the club when he heals. Let's all give them a Santa Anita A's "hello" when we see them at a meeting or outing.

Think About It

Before you criticize someone you should walk a mile in their shoes. That way, when you criticize them, you're a mile away and you'll have their shoes.

Some days you are the dog, some days you are the tree.

Model A Ford Club of America

Santa Anita A's is a chartered member of the Model A Ford Club of America, Inc. (MAFCA). It is a California not-for-profit corporation and a national historical society dedicated to the restoration and preservation of Model A Ford vehicles as manufactured from 1928 through 1931.

We encourage our SAA members to also participate in the MAFCA organization. Check out their web site. It contains a wide variety of information about the organization, activities, technical references and instructions on how to join the organization. (www.mafca.com)

COMING EVENTS

Christmas Party

Saturday, December 13

by Elaine Perry

It is time for the Santa Anita A's Annual Christmas Party. This is for club members and their families. RESERVATIONS ARE NECESSARY! Please sign up at the November meeting or call Elaine Perry (626-443-0638). The deadline for reservations is December 2nd. Make check payable to Santa Anita A's and give to Sheri Johnson.

BUFFET DINNER - The price for members and non-members will be \$12.00 per person for adults and \$5.00 for children 11 and under.

New Place - Arcadia Presbyterian Church. Time: 6:00 PM
121 Alice Street Arcadia (SE corner of Alice & First St)

Bring a wrapped gift for your child for Santa to hand out when he arrives.

Lights Tour

Saturday, December 13

Those of you who aren't rushing to save a seat at the Christmas Party, are invited to participate in the traditional Christmas lights tour that same night. We will all meet at COCO'S restaurant on Michalinda, (on the East side of the parking lot) at 4:30 PM. Bring both a flashlight so you can see the street signs and someone who can read directions. Santa will rescue you if you get lost.

Horseless Carriage Car Club Show & Excursion

Sunday, December 28

by Joe Wilson

The 59th Annual Holiday Motor Excursion will be held at the Irwindale Speedway on the Sunday after Christmas. This show features cars manufactured in 1932 and earlier although other classic cars will be on display. At 10:30 AM there will be a tour, restricted to 1932 and older cars. Gates Will open at 7:00 AM. Parking is \$5.00 per car.

Mom and Pops Night Out

Sometime in late January

The annual Mom and Pop's Night Out event is currently under development so we can't tell you much other than it will happen in late January and it will be a good one. This is a much anticipated event and we want everyone to put it on their calendar now. It will probably be on Sunday. There are five of them in January 2015, so to be safe, just mark them all down. Details TBA

Auction Night in Arcadia

Friday, Feb 27

Starts at 7:00 PM

by Joe Wilson

Yes, it's closet cleaning time again. Yes, we know you have been collecting surplus "things" all year. And, yes we want to help you find a home for all those 'Collectable's".

Load up the trailer and bring them to the annual Santa Anita A's Auction on Friday, February 27th. Pay attention, that is February next year not January next year.

Of Course you are expected to participate in both the buying as well as the selling portion of the event. Think of it as a convenient and efficient way to exchange things you do not want with things other people do not want.

PS - This is the same place as our General Meeting, but the affair start at 7:00 PM

Tour to the CCRG in Santa Maria

April 9 – April 13, 2015

by Bob Moore

The Santa Maria Model A Club is hosting the 2015 CCRG (Central California Regional Group) weekend event. The CCRG is comprised of Model A Clubs in the central portion of California. A CCRG event is held annually and the Santa Maria Club is the host in 2015 from April 10 -12.

Our club attended the CCRG in Bakersfield in 2012 along with 250 members from other clubs. More details will follow when the Santa Maria Club provides information on the hotels and their planned tours.

Keep this date open. This will be fun tour.

Ladies' Brunch

The Ladies' Brunch is on the second Monday of the month. Newer members, come and get to know other ladies in the club. The food is good. Separate checks.

The group meets at Annia's which is located at the El Monte airport, 11:00 AM.

Hill Climb at Murreta Springs

Sunday, Nov 2nd

by Anonymous

It was a great day for a "hill climb". The sun was shining and the temperature was perfect. The event took place in Murrieta, CA just north of Temecula off highway 15. It was sponsored by the F.A.S.T. Organization.

Two of our members participated: Art Moore in his yellow 1930 boat tail speedster and his wife Olive in her 1926 Model T speedster. Both cars built by Art have a four cylinder Model B block with a Riley four port head. A total of twenty-seven cars participated with twenty-nine drivers as well as about 185 spectators.

There was everything from stock Model T's to historic sprint cars – what a show! The distance of the course was 1/10 of a mile or 528 feet and about a 6% grade. Cars ran one at a time with a timing clock that recorded their E.T. (elapse time) to the thousandths of a second and their miles-per-hour. Each driver could run as many times as time permitted and their lowest E.T. counted for the competition. There are many categories so there were many class winners. The "King" of the hill this year was Olive with an E.T. of 8.202 seconds beating Art who ran an 8.203. Do the math – she won by one thousandths of one second! Congratulations!

For the second time, the horse show was canceled on us due to rain. We had 25 members, plus 2 guests driving in 11 Model A's. We did have lunch and visited the Farm Store on campus. Some of the group went to talk to the horses. Instead of us sitting in the stands and watching the horses moving, we were the ones that moved and the horses watched us.

Tech Seminar

November 8

by Joe Wilson

How do you fasten metal parts together? You can bolt them, screw them, rivet them, solder them, braze them, weld them or just tie them with a piece of string. The seminar presented by Jack Dawson and Gene Reinhardt addressed some, but not all of those options.

Thirty people attended the seminar, about twice as many as had signed up. But good old Barbara Dawson magically found food to feed the masses. No one was burned or blinded during the session but I believe most everyone now has a better understanding and respect for the processes.

We had a few professional welders in the audience. Perhaps they learned something as well, such as, don't stand too close to a guy that has never had a torch in his hand before.

Arcadia Festival of Bands

November 15

by Joe Wilson

Several SAA Model A club members participated in the 61st Annual Arcadia Festival of Bands sponsored by the Arcadia High School. The cars carried local dignitaries in a short parade which kicked off the contest which featured 44 high school bands from Southern California.

Participating in the event were: Bob Travis, Bob Moore, Joe Farino, Marlin Perry, Jim Frick, Brad Balmot, Ken Mallory, Randy Harper and Bob Harbicht.

Halloween at the Cross

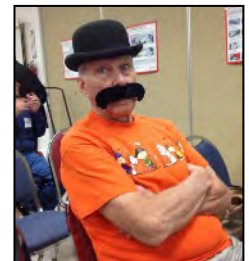

October 31

by Joe Wilson

As predicted, Halloween fell on the last Friday of October, the same night as our regular meeting. For that reason some members came in costumes. Others came in their regular clothes which also looked like costumes.

We had 15 entries in the costume contest. Couples winners were Kurtz, Knox, Jim Kroeger and Janice. Single winners were Olive Moore, Vicky Balmot and Jack Dawson. Olive fooled everyone with her full face mask. She sat alone. No one wanted to talk to her until the unveiling after announcement of the winners.

The Pumpkin carving contest included 4 entries, John Emanuell, Nancy Stancil, Elaine Perry and the winners, Art and Olive Moore. Although not present for the competition, Tom Johnson did send me a photo of a pumpkin freshly cut from his garden. Using special seeds and a secret fertilizer he was able to grow a "beer pumpkin. See the photo below.

Respectfully submitted, Elaine Perry, Secretary

I have completed 50 years of membership in MAFCA and feel very strongly that membership in MAFCA is an important part of the enjoyment of our hobby. It keeps us in touch with the national level leadership, provides a means to voice our ideas and opinions and offers an opportunity to increase our circle of friends as we attend National meets and tours. You'll notice I haven't even mentioned the great magazine "The Restorer", published by MAFCA and all it offers in every issue. If you are not a member, now is the time to join as January begins a new year of great Model A'ing.

Finally I want to say something about this great board that I have the pleasure to work with. John McDannel as the VP has stood in for me as presiding officer at several meetings and does a great job providing a wide variety of programs at our meetings. I think he wants my job- how about it John? Our secretary, Elaine Perry, prepares the best meeting minutes you could ever ask for and of course Sheri Johnson, as treasurer, a new position for her, has not lost track of a dime yet. The remaining board members are serving well as a cohesive group who truly have the club's best interest at heart. It's almost enough to make a guy sign up for another term--Ha!

Drive an A every day. And Happy Thanksgiving you 'all.

Getting the Right Air for your Carburetor

The article below appeared in Technical Q and A section of the Restorer Magazine. Good information

AIR ADJUSTMENT

Problem:

When you turn the carburetor air adjustment screw in (clockwise), are you making the mixture richer or leaner? My 'A' has a tendency to want to stall when you slow down to turn a corner and have the clutch in to shift into second gear. I have set the idle up higher than it should be to avoid the stall problem. Does this seem like an idle mixture that is too lean or too rich? I have heard both opinions expressed.

Solution:

The carburetor air adjustment affects idle air mixture only. For this adjustment to work correctly you must have no air leaks around the manifold gasket (intake side) or at the carburetor. Many times the throttle shaft in the upper housing of the carburetor is worn and allows air to be drawn in around the shaft.

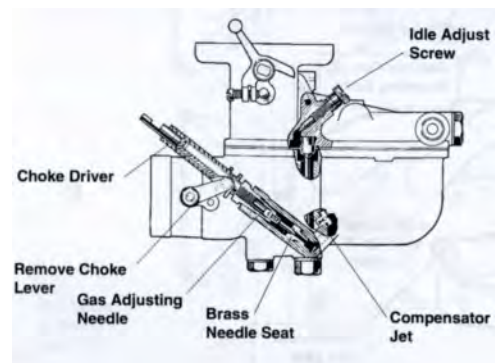

- To make correct an adjustment of idle air adjustment screw begin by turning the idle air screw all the way in (CW) to the seat (lightly) and then back out (CCW) 1-1/2 turns. With the spark lever in the full retard position, bring the engine to an idle. Lean the carburetor mixture a little by adjusting the dash adjusting knob for no more than 1/4 turn open.

- Now turn the idle air screw in slowly until the engine starts to stall (Note the position of the screw). It should cause the engine to start to stall out about 1/4 turn in (CW) from where you started.

- Now slowly turn the screw CCW until the engine starts to stall again. Then turn back CW to a point in between the two stall points. This should be about 1-1/2 turns from the seat.

Turning the screw CW reduces the air mixture to the idle fuel, making it a richer mixture (less air). Turning the screw CCW increases the air mixture, there by providing a leaner fuel mixture. If the screw has little or no effect it means you either have an air leak in the idle circuit (usually caused by too much wear around the throttle shaft) or if you have a windshield wiper vacuum line you may have a leak in that line. Put a 1/8" brass pipe plug in the intake manifold vacuum connection to plug it off for testing (1930/1931 only with vacuum wipers).

The problem you describe can also be caused by float level set too high. When the float level is too high the fuel level in the jets is too high and causes a rich mixture when engine vacuum is reduced (as when slowing down to turn a corner). The rich mixture floods the carburetor, causing it stall or quit at reduced speeds.

Welding Seminar

Nov. 8, 2014

This seminar was held at Jack and Barbara Dawson's home. It was conducted by Jack Dawson and Gene Reinhardt. We were fortunate to have Rick Phillips and his son with us, Rick's son is a certified welder with the city of Los Angeles, and he knows his stuff like Jack and Gene.

They showed us many things including how to sharpen drills, brazing and different welding procedures such as arc, wire and other types of welding - - - very smart men.

We thank them all and we thank Barbara for providing morning refreshments and lunch. We had 18 sign up. Some that were there did not sign up and 5 that signed up did not attend. Lucky for us Barbara called up the caterer and ordered more food.

To sum up it was great. A lot was learned. Thanks to Barbara and Jack for hosting.

Sincerely, Marlin

SAA's 40TH Anniversary to Be Celebrated

By Mickey Fruchter

A planning committee has been organized by your Board of Directors to plan for our 40th anniversary to be celebrated next year. The committee is looking for suggestions from the membership re: tours, picnics, banquets, activities and souvenirs to celebrate this occasion.

Please give your ideas and suggestions to committee members: Carol Emanuelli, Mickey Fruchter, John McDannel or Bob Moore.

Help make this special event memorable by providing us with your input.
